**IMPORTANT!**

Financial aid ( ILSTO and TAC) will be announced in mid to late May.

Enrollment fees (formerly called registration fees) are typically nonrefundable. However, we understand that families may be hesitant to register for 2022-2023 until they know how much financial aid they will receive. Delaying registration until financial aid is announced may jeopardize placement in larger classes, as enrollment is determined on a first-come, first-served basis.

To offset the financial risk to families but still encourage early registration under the lower fees, every family will have a 5-day grace period after financial aid awards are announced in May (via letter) during which time they can request a refund of enrollment fees if they feel their financial aid is inadequate to return to Central in 2022-23. Refunds will only be given within the 5 day window or if you are moving out of the area- transferring to a local public school does not qualify for a refund.

- 1) All requests must be presented in writing (hard copy only; no email or electronic transmission) to Principal Parris within the 5-day grace period (tba).
- 2) Requests must specifically state the request for a refund of enrollment

fees is solely for financial reasons.
